

We've officially launched the Product!

**NEW  
PRODUCT**

## Challenge for Standardization of Next-Generation Motors

**Standard AC Motor  
KII Series**

Single-Phase Induction Motor

**KIS Series**

Three-Phase High-Efficiency Induction Motor

## Technical Information

High performance motor that lasts longer.

### Long Life

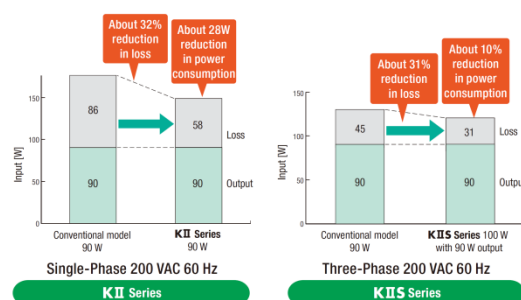

The Gearhead ball bearing diameter has increased, resulting in doubling the life of the gearhead (10,000 hours compared to the rated life of 5,000 hours of conventional gearheads). Performing maintenance has decreased as a result of the longer life.

The rated life has doubled compared to conventional products.

### High Efficiency

The optimal magnetic design and dedicated parts have dramatically reduced losses, achieving high efficiency. Compared with the conventional model under the same conditions, this model needs less power, contributing to a labor-saving device.

## Demo Videos
